

# Buyers come here ready to buy. Be the shop they pick.

LebTech compares laptop, phone and tablet prices across Lebanese shops, refreshed daily. Shoppers find the best price — then click straight through to the shop. Here is exactly what each plan gives you.

## LAUNCH OFFER

**Free**  
**\$0**

Your products listed and compared, prices refreshed daily, your own shop page, buyers clicking straight through to you. Free for a limited time.

## ON-DEMAND

**Boost**  
**\$5/day**

Featured placement on the homepage, top of the shops directory and a labeled sponsored card — only for the days you choose. No subscription.

## FULL ANALYTICS

**Pro**  
**\$59/mo**

See the market the way we do: demand, your competitiveness model-by-model, the buyers we send you, and a monthly market report. Cancel anytime.

Billing	Free	\$5/day, on-demand	\$59/mo, cancel anytime

Boost and Pro stack — a shop can run both at once. All prices in USD.

**Our promise to shops and shoppers:** no shop can pay to look cheaper than it is, or to hide a rival's lower price. The genuinely cheapest price always wins; a featured badge only ever breaks an exact price tie, and it is always labeled. That trust is why buyers use LebTech — and why the clicks you get here convert.

## Free — the foundation

**\$0 · launch offer**

Get found by buyers who are ready to purchase.

- ✓ All your laptops, phones and tablets listed next to the same models from other shops — when you're cheapest, buyers see it instantly.
- ✓ We read your public website automatically and refresh prices and stock daily. No spreadsheets, no uploads, no work on your side.
- ✓ Your own search-indexed shop page, linked from every product you sell.
- ✓ Every buyer who picks you clicks straight through to your own site — we never sell anything ourselves.
- ✓ Claim your shop to unlock a free private dashboard: the buyers we sent you, listing freshness, and data-quality tools.

*Free shops are never buried — ranking is by real price only, so a free shop with the best price beats every paid shop, always.*

## Boost — on-demand visibility

**\$5/day**

Stand out exactly when it matters — pay only for the days you want.

- ✓ Featured placement in the homepage featured-shops strip — the most-seen surface on the site.
- ✓ Top of the shops directory while your boost window is open.
- ✓ One clearly-labeled sponsored card for your shop near the top of category pages.
- ✓ Enhanced shop profile: your logo, WhatsApp contact, opening hours and delivery info — buyers reach you in one tap.
- ✓ By-the-day billing: boost 3 days around a sale or 30 for a season, then stop. No subscription, no lock-in.

*Boost buys visibility, never rank. It cannot outrank a genuinely cheaper offer — it only breaks an exact price tie, and every placement is labeled.*

## Pro — full market analytics

**\$59/mo**

See the market the way we do.

- ✓ A private analytics dashboard: demand trends, most-wanted models, and market movement, updated continuously.
- ✓ Your competitiveness model by model — where you're cheapest, how far off you are, and exactly which models you win or lose on.
- ✓ The real clicks and shoppers LebTech delivered to your site — the concrete return on being listed.
- ✓ A monthly market report: your wins, your gaps, and what changed.
- ✓ Monthly billing, cancel anytime. One repricing decision a month typically pays for it.

*Your numbers are private to you — we never show one shop's performance to another. Analytics is a private view, not a leaderboard.*

**Start free today.**

Getting listed takes a minute — we handle the rest.
